ALFAIZ RAYHAN PUTRA ADJI

CYBER SECURITY SPECIALIST (WEB APPSEC / BLUE TEAM) & DIGITAL FORENSICS (DFIR)

Bekasi, Indonesia | +62 812-8422-9768 | alfaiz1002@gmail.com | linkedin.com/in/alfaiz-rayhan

PROFESSIONAL SUMMARY

Bachelor of Computer Engineering (S.T.) graduate from Telkom University possessing dual technical competencies in **Web Application Security (OWASP Top 10 / Blue Team Defense)** and **Digital Forensics & Incident Response (DFIR)**. Proven field investigation experience at the Directorate of Cyber Crime Investigation (Ditres Siber), Jakarta Metropolitan Police (Polda Metro Jaya), in digital evidence acquisition, Chain of Custody preservation, and system/mobile forensic analysis. Demonstrated leadership instructing university lab practicums, mentoring student researchers, and co-authoring the official 101-page CSE-410 course manual at Security Laboratory (SecuLAB). Official Active Member of the Indonesian Digital Forensics Association (AFDI) and holder of Blue Team Junior Analyst (BTJA) and PassMark OSFTC certifications.

TECHNICAL SKILLS

Web Application Security & AppSec: OWASP Top 10 (SQLi, XSS, CSRF, IDOR, SSRF), Vulnerability Assessment & Remediation, Web Application Firewall (WAF), Multi-Factor Authentication (OTP/2FA RFC Compliant), HTTP Security Headers (HSTS, CSP, X-Frame), Cryptography & Hashing (Bcrypt, HMAC SHA-512), Payment Gateway API Security (Midtrans), Role-Based Access Control (RBAC), Rate Limiting & Anti-Brute Force, Audit Logging & Anti-Repudiation (ISO 27001 Standard).

Digital Forensics & Incident Response (DFIR): Digital Evidence Acquisition & Preservation, Chain of Custody, Windows Forensics (Registry NTUSER/SAM/SYSTEM, EVTX Logs), Mobile Device Forensics (Android BFU/AFU), Database Triage, Packet Analysis, Police Forensic Examination Reports (BAP).

Tools & Software: FTK Imager, Autopsy, OSForensics, Magnet ACQUIRE, Registry Explorer, Andriller, ExifTool, SQLite Browser, Burp Suite, Wireshark, Git, Kali Linux, WSL.

Programming & Databases: PHP, Laravel, JavaScript, MySQL, HTML5/CSS3, Python Basics, Bash/Shell Scripting.

WORK & PRACTICAL EXPERIENCE

Directorate of Cyber Crime Investigation (Ditres Siber), Polda Metro Jaya — **Jakarta, Indonesia**

Digital Forensics Intern (Cyber Investigation Sub-Directorate) — June 30 – August 9, 2025

- Preserved digital evidence **Chain of Custody** across physical storage media (SSDs, USB flash drives) using hardware write blockers (**Safe Block**) and verified cryptographic bit-stream hashes (**MD5 & SHA-256**) to ensure 100% courtroom legal admissibility.
- Conducted physical bit-by-bit forensic image acquisitions (**FTK Imager**) and parsed deep **Windows Registry** artifacts (NTUSER.DAT user activity, SAM 2,900+ user logins, SYSTEM USBSTOR) via **Registry Explorer** to reconstruct suspect timelines.
- Executed forensic extractions on Android mobile devices (BFU/AFU states) utilizing **Andriller CE** and **ADB** to recover chat histories and application databases, complemented by digital media metadata triage via **ExifTool**.
- Authored formal **Digital Forensics Examination Reports (Draf BAP)** adhering to Indonesian criminal procedural law (KUHAP) and police investigative documentation standards.

Security Laboratory (SecuLAB), Telkom University — **Bandung, Indonesia**

Teaching Assistant & Research Advisor (Digital Forensics Division) — August 2025 – June 2026

- Instructed and supervised laboratory practicums in **System Security** and **Real-Time Operating Systems (RTOS)** for undergraduate engineering students, overseeing technical defense scenarios and practical evaluations.
- Served as **Research Advisor** within the Digital Forensics Research Division, formulating targeted research topics and coaching junior researchers on Windows Registry analysis tool benchmarking.
- Co-authored the official 101-page university curriculum manual **CSE-410 Digital Forensics (12 Practicum Modules)** covering Chain of Custody, YARA Rules, Android ADB, EVTX logs, Plaso timeline analysis, and Wireshark in collaboration with the Lead Lab Advisor.

EDUCATION

Telkom University — **Bandung, Indonesia**

Bachelor of Computer Engineering (S.T.) | Focus: Cyber Security & Digital Forensics — 2022 – 2026

KEY PROJECTS & SECURITY IMPLEMENTATIONS

Pineus Tilu Reservation Web Security Implementation Based on OWASP Top 10 (Capstone Design) **Telkom University**

Role: Blue Team – Lead Security Implementation & Remediation 2025 – 2026

- Architected and implemented **13+ backend security controls** including custom Web Application Firewall (WAF), rate-limiting anomaly detection (>50 req/min), and HTTP Security Headers (HSTS, CSP, X-Frame) mitigating OWASP Top 10 vulnerabilities (SQLi, XSS, CSRF, IDOR).
- Engineered an enterprise Multi-Factor Authentication (MFA/OTP) engine with CSPRNG and Bcrypt achieving 100% compliance across **RFC 4226 (HOTP) and RFC 6238 (TOTP)** standards, featuring multi-tier password validation and k-Anonymity breach detection.
- Secured Midtrans payment gateway integrations via **HMAC SHA-512** signature validation and constant-time comparison to prevent Webhook Spoofing, integrated with Telegram bot instant alert notifications and **ISO 27001** audit log retention.

CSE-410 Digital Forensics Laboratory Courseware Development (101 Pages) **Security Laboratory**

Role: Co-Author & Lead Technical Developer 2026

- Authored 12 investigative laboratory modules covering Chain of Custody (SHA-256), YARA Rules, Android ADB/SQLite forensics, EVTX log analysis, Plaso super-timelines, and validated 100% technical reproducibility across forensic toolchains (Autopsy, FTK Imager, ExifTool, Chainsaw).

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- **Blue Team Junior Analyst (BTJA)** – Centri / Security Blue Team (2026)
- **OSForensics Triage Certification (OSFTC)** – PassMark Software (2025)
- **Forensic & Integrity Services** – EY (Ernst & Young) via Forage (2026)
- **System Security Practicum Assistant** – SecuLAB Telkom University (2026)
- **IT Audit Fundamentals & Standards** – Codelamp Indonesia (2026)
- **Digital Forensics Basics** – Cybrary (2026)
- **AFDI Official Registered Member** – Indonesian Digital Forensics Association (2026)
- **Intro to DFIR: Divide & Conquer** – Cyber Triage & Sleuth Kit Labs (2026)
- **Introduction to Cybersecurity** – Cisco Networking Academy (2026)
- **RTOS Practicum Assistant** – SecuLAB Telkom University (2026)
- **C5W-100 Intro to Digital Forensics** – Cyber 5W (2026)
- **DFIR Foundations & Techniques** – Blue Cape Security (2026)

SOFT SKILLS & CORE COMPETENCIES

- **Analytical & Problem Solving:** In-depth root-cause analysis of security anomalies and precise technical remediation of web vulnerabilities.
- **Investigative Mindset & Detail Orientation:** High rigor in digital artifact extraction and preserving Chain of Custody legal evidence integrity.
- **Technical Reporting & Documentation:** Proficient in drafting formal police-standard examination reports, case documentation, and university lab courseware.
- **Leadership, Mentorship & Adaptability:** Experienced in leading campus event operations, mentoring junior lab researchers, and thriving under incident pressure.

ORGANIZATION & LEADERSHIP

Computer Engineering Student Association (HMTK), Telkom University **Bandung, Indonesia**

Esports Division Lead Centurion (2025) & Sponsorship Staff Connection (2024) 2023 – 2025

- Spearheaded end-to-end tournament operations for the FIFA esports competition, overseeing match bracket structure, scheduling, rulebook fair-play, and technical dispute resolutions for dozens of participants with 100% on-time execution.
- Secured external sponsorships and served as Educational Mentor facilitating interactive technology logic and basic game-building workshops for elementary school students.

Indonesian Digital Forensics Association (AFDI) **Indonesia**

Official Registered Active Member May 2026 – Present

- Actively participating in technical knowledge-exchange forums, professional webinars, and national digital forensics competency development programs.
