ALFAIZ RAYHAN PUTRA ADJI

Bandung / Bekasi, Indonesia | Phone: +62 812-8429-768 | Email: alfaiz1002@gmail.com | LinkedIn: linkedin.com/in/alfaiz-rayhan

PROFESSIONAL SUMMARY

Bachelor of Computer Engineering (S.T.) graduate from Telkom University possessing technical expertise and practical experience in Cyber Security (Blue Team / Web AppSec) and Digital Forensics & Incident Response (DFIR). Proven track record handling digital evidence at the Directorate of Cyber Crime Investigation (Ditres Siber), Jakarta Metropolitan Police, as well as leading laboratory practicums and authoring the official 101-page lab manual at the Security Laboratory, Telkom University. Registered Official Member of the Indonesian Digital Forensics Association (AFDI) and OSForensics Certified (OSFTC).

WORK EXPERIENCE

Digital Forensics Intern – Directorate of Cyber Crime Investigation (Ditres Siber), Polda Metro Jaya

Jakarta, Indonesia | June 2025 – August 2025

- Executed physical and logical digital evidence acquisition and preservation, maintaining Chain of Custody and SHA-256 hash integrity using FTK Imager and Magnet ACQUIRE.
- Analyzed Windows Registry artifacts, SQL databases, file systems, system event logs, and Android mobile devices under police investigator supervision.
- Operated Autopsy, Registry Explorer, Andriller, OSForensics, and SQLite Database Browser for case evidence extraction and deleted data recovery.
- Drafted Digital Forensics Examination Reports compliant with law enforcement documentation standards and courtroom legal admissibility.

Practicum Assistant & Research Advisor, Security Laboratory – Telkom University

Bandung, Indonesia | 2025 – 2026

- Instructed System Security and Operating System practicums for undergraduate Computer Engineering students and guided hands-on security case analyses.
- Co-authored and engineered the official 101-page CSE-410 Digital Forensics laboratory manual (12 practicum modules) in direct collaboration with the Seculab Advisor Lecturer.
- Mentored junior division members, supervising comparative research on three Windows Registry forensic analysis tools.

EDUCATION

Telkom University

Bachelor of Engineering (S.T.) in Computer Engineering | 2022 – 2026

KEY PROJECTS & SECURITY IMPLEMENTATIONS

Security Architecture & Implementation for Pineus Tilu Website Based on OWASP Top 10 (Undergraduate Capstone)

Role: Blue Team – Lead Security Implementation & Remediation | Telkom University

- Architected 13+ backend security features (Laravel/MySQL) including custom WAF, rate-limiting (>50 req/min), automated SQLi/XSS/IDOR mitigation, and 5 HTTP Security Headers (HSTS, CSP, X-Frame).
- Engineered an OTP authentication system (CSPRNG, Bcrypt, 15-min expiry) with performance benchmarking (50 iterations) achieving 100% compliance with RFC 4226, 6238, and 6287 standards.
- Secured Midtrans payment gateway integration using HMAC SHA-512 signature validation and API cross-verification to prevent Webhook Spoofing.
- Built a real-time Telegram Bot for critical incident alerting and enforced audit log retention policies compliant with ISO 27001 standards and anti-repudiation.

CSE-410 Digital Forensics Course Curriculum & Laboratory Manual Development (101 Pages)

Role: Co-Author & Lead Technical Developer | Security Laboratory, Telkom University

- Architected 12 practicum modules covering Chain of Custody (SHA-256), YARA Rules, Android ADB/SQLite forensics, EVTX/Linux log analysis, Plaso timeline, and Wireshark.
- Conducted end-to-end technical validation across forensic toolchains (Autopsy, FTK Imager, ExifTool, Chainsaw) to ensure 100% case study reproducibility.

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- **AFDI Official Registered Member** – Indonesian Digital Forensics Association (2026)
- **OSForensics Triage Certification (OSFTC)** – PassMark Software (2025)
- **Intro to DFIR: The Divide and Conquer Process** – Cyber Triage & Sleuth Kit Labs (2026)
- **Forensic and Integrity Services Job Simulation** – EY (Ernst & Young) via Forage (2026)
- **Introduction to Digital Forensics** – Security Blue Team (2025)
- **IT Audit Fundamentals & Professional Standards** – Codelamp Indonesia (2026)

TECHNICAL SKILLS

Cyber Security & AppSec: Web Application Security, OWASP Top 10, WAF, Vulnerability Assessment, Multi-Factor Authentication (OTP), Cryptography (Bcrypt, SHA-512), ISO 27001, RBAC Enforcement

Digital Forensics & IR: Evidence Acquisition & Preservation, Chain of Custody, Windows Forensics, Mobile Forensics, Windows Registry & EVTX Analysis, Plaso Super-Timeline, Wireshark

Tools & Software: FTK Imager, Autopsy, OSForensics, Magnet ACQUIRE, Registry Explorer, Andriller, SQLite Browser, Burp Suite, Kali Linux, Git

Programming & Databases: PHP, Laravel, MySQL, JavaScript, Python Basics

ORGANIZATION & LEADERSHIP

HMTK Telkom University: Centurion Esports Division Lead (FIFA Tournament, match bracket design & fair-play rulebook, 2025) | Connection Sponsorship & Community Outreach Staff (2024)
