ALFAIZ RAYHAN PUTRA ADJI

Bekasi, Indonesia | +62 812-8422-9768 | alfaiz1002@gmail.com | linkedin.com/in/alfaiz-rayhan

PROFESSIONAL SUMMARY

Computer Engineering Graduate (Bachelor of Engineering - S.T.) from Telkom University with multi-disciplinary competence in **Web Application Security (OWASP Top 10 / Blue Team)**, **Digital Forensics & Incident Response (DFIR)**, and **Information Security Auditing (ISO 27001 & NIST CSF)**. Proven track record in law enforcement digital forensics at Polda Metro Jaya Cyber Crime Investigation Directorate, executing bit-by-bit physical acquisitions, chain of custody preservation, and Windows Registry/mobile extraction. Experienced Laboratory Instructor & Research Advisor at SecuLAB Telkom University, co-authoring the official CSE-410 Digital Forensics laboratory manual (101 Pages). Official registered member of AFDI, holder of Blue Team Junior Analyst (BTJA) and PassMark OSFTC certifications.

TECHNICAL SKILLS

Web Application Security & AppSec: OWASP Top 10 (SQLi, XSS, CSRF, IDOR, SSRF), Vulnerability Assessment & Remediation, Web Application Firewall (WAF), Multi-Factor Authentication (OTP RFC 4226 & 6238 Compliant), HTTP Security Headers (HSTS, CSP, X-Frame), Cryptography & Hashing (Bcrypt, HMAC SHA-512), Payment Gateway Integration Security (Midtrans API), Role-Based Access Control (RBAC), Rate Limiting & Anti-Brute Force, Audit Logging & Anti-Repudiation (ISO 27001).

Digital Forensics & Incident Response (DFIR): Digital Evidence Acquisition, Chain of Custody, Windows Forensics (Registry NTUSER/SAM/SYSTEM, EVTX Logs), Mobile Device Forensics (Android BFU/AFU), SQL Database Triage, File System Analysis, Wireshark Packet Analysis, Forensic Report & Court BAP Drafting.

Tools & Software: FTK Imager, Autopsy, OSForensics, Magnet ACQUIRE, Registry Explorer, Andriller, ExifTool, SQLite Browser, Burp Suite, Wireshark, OWASP ZAP, Nmap, Git, Kali Linux, WSL.

Programming & Databases: PHP, Laravel, JavaScript, MySQL, HTML5/CSS3, Python Fundamentals, Bash/Shell Scripting.

WORK & PRACTICAL EXPERIENCE

Ditres Siber Polda Metro Jaya (Cyber Crime Directorate) — **Jakarta, Indonesia**

Digital Forensics Intern (Sub-Directorate Cyber Crime) — June 30 – August 9, 2025

- Maintained strict **Chain of Custody** for physical digital evidence (SSDs, USB Flash Drives) using hardware write blockers (**Safe Block**) and cryptographic verification (**MD5 & SHA-256**), ensuring legal admissibility under criminal procedure standards.
- Conducted bit-by-bit physical disk imaging (**FTK Imager**) and analyzed critical **Windows Registry** hives (NTUSER.DAT user activity, SAM 2,900+ login accounts, SYSTEM USBSTOR) via **Registry Explorer** to reconstruct suspect activity.
- Executed mobile forensics extractions on Android devices (BFU/AFU states) utilizing **Andriller CE** and **ADB** for message timeline extraction and app SQLite database triage, supplemented with automated metadata extraction via **ExifTool**.
- Extracted and analyzed multimedia digital evidence metadata (images & documents) utilizing **ExifTool** to validate geolocation (GPS coordinates), device profiles, creation timestamps, and verify investigative artifact authenticity.
- Drafted official police-standard **Digital Forensic Examination Reports (BAP)** complying with statutory investigative documentation requirements and anti-repudiation principles.

Security Laboratory (SecuLAB) Telkom University — **Bandung, Indonesia**

Practicum Assistant & Research Advisor (Digital Forensics Division) — August 2025 – June 2026

- Instructed hands-on laboratory practicums for **System Security** and **Real-Time Operating Systems (RTOS)** for undergraduate students, mentoring case study problem-solving and evaluating technical assessments.
- Served as **Research Advisor** in the Digital Forensics Research Division, formulating research scopes and guiding junior student research on comparative analysis of Windows Registry forensic tools.
- Co-authored and developed the official university curriculum manual **CSE-410 Digital Forensics (101 Pages, 12 Practicum Modules)** covering Chain of Custody, YARA Rules, Android ADB, EVTX logs, Plaso super-timelines, and Wireshark in collaboration with faculty advisors.

EDUCATION

Telkom University — **Bandung, Indonesia**

Bachelor of Computer Engineering (S.T.) — 2022 – 2026

SMA Negeri 2 Kota Bekasi — **Bekasi, Indonesia**

Science Major (MIPA) — 2019 – 2022

KEY PROJECTS & SECURITY IMPLEMENTATIONS

Pineus Tilu Reservation Web Security Implementation Based on OWASP Top 10 (Capstone Design) — **Telkom University**

Role: Blue Team – Lead Security Implementation & Remediation — 2025 – 2026

- Architected and implemented **13+ backend security controls** including custom Web Application Firewall (WAF), rate-limiting anomaly detection (>50 req/min), and HTTP Security Headers (HSTS, CSP, X-Frame) mitigating OWASP Top 10 vulnerabilities (SQLi, XSS, CSRF, IDOR).
- Engineered an enterprise Multi-Factor Authentication (MFA/OTP) engine with CSPRNG and Bcrypt achieving 100% compliance across **RFC 4226 (HOTP) and RFC 6238 (TOTP)** standards, featuring multi-tier password validation and k-Anonymity breach detection.
- Secured Midtrans payment gateway integrations via **HMAC SHA-512** signature validation and constant-time comparison to prevent Webhook Spoofing, integrated with Telegram bot instant alert notifications and **ISO 27001** audit log retention.

E-Commerce Information Security Audit Based on ISO 27001 & NIST CSF — **Telkom University**

Role: Lead Information Security Auditor & Risk Assessor — 2026

- Conducted a comprehensive information security audit on an enterprise e-commerce platform applying **ISO/IEC 27001:2022** and **NIST Cybersecurity Framework** standards, evaluating ISMS controls across Identify, Protect, Detect, Respond, and Recover domains.
- Executed vulnerability assessments and targeted penetration tests using **Nmap, OWASP ZAP, and Wireshark**, identifying 7 security control findings (3 Critical) including plaintext credential storage without cryptographic hashing, lack of MFA, and broken access control (RBAC).
- Formulated comprehensive Risk Impact Analyses, evaluated statutory compliance with **Indonesian Personal Data Protection Law (UU PDP No. 27/2022)**, quantified financial loss exposure, and delivered an actionable security remediation and governance roadmap.

CSE-410 Digital Forensics Laboratory Courseware Development (101 Pages) — **Security Laboratory**

Role: Co-Author & Lead Technical Developer — 2026

- Authored 12 investigative laboratory modules covering Chain of Custody (SHA-256), YARA Rules, Android ADB/SQLite forensics, EVTX log analysis, Plaso super-timelines, and validated 100% technical reproducibility across forensic toolchains (Autopsy, FTK Imager, ExifTool, Chainsaw).

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

- **Blue Team Junior Analyst (BTJA)** – Centri / Security Blue Team (2026)
- **OSForensics Triage Certification (OSFTC)** – PassMark Software (2025)
- **Forensic & Integrity Services** – EY (Ernst & Young) via Forage (2026)
- **System Security Practicum Assistant** – SecuLAB Telkom University (2026)
- **IT Audit Fundamentals & Standards** – Codelamp Indonesia (2026)
- **Digital Forensics Basics** – Cybrary (2026)
- **AFDI Official Registered Member** – Indonesian Digital Forensics Association (2026)
- **Intro to DFIR: Divide & Conquer** – Cyber Triage & Sleuth Kit Labs (2026)
- **Introduction to Cybersecurity** – Cisco Networking Academy (2026)
- **RTOS Practicum Assistant** – SecuLAB Telkom University (2026)
- **C5W-100 Intro to Digital Forensics** – Cyber 5W (2026)
- **DFIR Foundations & Techniques** – Blue Cape Security (2026)

SOFT SKILLS & CORE COMPETENCIES

- **Analytical & Problem Solving:** In-depth root-cause analysis of security anomalies and precise technical remediation of web vulnerabilities.
- **Investigative Mindset & Detail Orientation:** High rigor in digital artifact extraction and preserving Chain of Custody legal evidence integrity.
- **Technical Reporting & Documentation:** Proficient in drafting formal police-standard examination reports, case documentation, and university lab courseware.
- **Leadership, Mentorship & Adaptability:** Experienced in leading campus event operations, mentoring junior lab researchers, and thriving under incident pressure.

ORGANIZATION & LEADERSHIP

Centurion HMTK – Esports Division Lead (FIFA Tournament) — **Telkom University**

Computer Engineering Student Association (HMTK) — April 25 – May 2025

- Spearheaded end-to-end tournament operations for the FIFA esports competition, overseeing match bracket structure, scheduling, and participant polling systems.
- Formulated competition guidelines, fair-play rulebooks, and technical dispute resolution protocols to maintain competitive integrity.
- Managed multi-stage match schedules and coordinated dozens of participants, achieving 100% on-time and incident-free tournament execution.

Connection HMTK – Sponsorship & Community Outreach Staff — **Telkom University**

Computer Engineering Student Association (HMTK) — December 2023 – October 2024

- Conducted partnership prospecting and sponsor fundraising for the department's main annual event.
- Acted as a responsive cross-divisional coordinator supporting event logistics, operational workflow, and execution across multiple committees.
- Served as Educational Moderator & Interactive Mentor for 3rd-grade elementary students, facilitating basic technology logic learning sessions and educational game creation.

Indonesian Digital Forensics Association (AFDI) — **Indonesia**

Official Registered Active Member — May 2026 – Present

- Actively participating in technical knowledge-exchange forums, professional webinars, and national digital forensics competency development programs.
